

Butterfly valve Automation Examples

Features:

- B5101 butterfly valve, clamp x clamp, stainless steel vertical canister, spring return, normally closed
- (1) 10-30VDC proximity sensor

Features:

- B5101 butterfly valve, clamp x clamp, stainless steel vertical canister, double acting

Features:

- B5104 butterfly valve, clamp x clamp, stainless steel vertical canister, spring return
- 110VAC control top

Features:

- B5102 butterfly valve, stainless steel horizontal actuator, double acting
- NEMA 4/4X 3-15PSI pneumatic positioner

Features:

- B5101 butterfly valve, clamp x clamp, stainless steel rack and pinion actuator, spring return
- NEMA 4/4X 3-15PSI pneumatic positioner

Features:

- B5101 butterfly valve, clamp x clamp
- standard 4-position handle with a NEMA 4 SPDT limit switch with 2 mechanical switches
