

The Right Connection®

Dixon Sanitary offers Custom Fabrications

Send us your sketches - no part is too tough!

Send us your requirements - no order is too small. Let our experienced machinists, welders and polishers go to work for you.

- Parts will be manufactured to your specifications or to the drawing supplied
- A CAD drawing will be submitted for approval
- Your quotation will be returned to you expeditiously
- Upon acceptance of our quotation and print approval, we will proceed with the manufacture of your order.
- Specialty is stainless steel (304 and 316L), however, other alloys are also available
- We offer polished, unpolished and electro-polished finishes
